

**NATIONAL
TRAINING PROGRAM**

USTA National Training Program

Full-Time Residency Admissions Information

Overview

The United States Tennis Association Incorporated (“USTA”) is pleased to announce the development of the USTA National Training Program which offers accommodations for student athletes at the USTA Training Center located in Boca Raton, Florida. The USTA National Training Program provides the tools and guidance to achieve the highest level of development for a select group of promising young American tennis players, both on and off the tennis court.

USTA National Training Program

The goal of the USTA National Training Program is to enable promising young tennis players the opportunity to make a commitment to their game of tennis. In addition, this program will assist students in transitioning from junior to professional players. It will provide students with the support they need to grow both professionally and personally and to develop not only into a world class tennis player but a world class individual with the skills and poise to possibly represent the United States in some of the highest level domestic and international competitions.

The USTA National Training Program is designed for young American players - boys and girls ages 13 to 18 – who have the potential, desire, dedication and genuine ambition to become top level professional tennis players. High levels of physical fitness and mental acuity are prerequisites. The USTA National Training Program provides students with a schedule of on-court training and coaching, off-court strength and conditioning training, sports science and medical support, tournament travel, housing, and flexible education opportunities. The USTA National Training Program and its coaching staff will equip its students with the tools and training for success, enabling the passion which is found within only tennis’ most elite players.

The program offers a select number of students the opportunity to live for one academic year at our newly constructed USTA Training Center in Boca Raton, Florida. These select students will have the opportunity to train with some of the country’s most talented coaches.

The USTA National Training Program, through its affiliation with the Evert Tennis Academy (“ETA”), has partnered with Kaplan High School to provide an excellent academic option to suit the unique needs of our students. This program is approved by the USTA and affords the student the ability to meet the Program’s rigorous training requirements. The classroom is conveniently located on campus and individually tailored to our student’s needs. Students progress will be monitored during the academic process. Ultimately, however, it is the student’s and the student’s parents’ responsibility to make sure that the student undertakes an appropriate academic schedule. Failure by the student to maintain a high level of academic excellence may result in discipline, suspension, or expulsion from the USTA National Training Program in the sole discretion of the USTA.

In order to be considered to be one of the elite at the USTA National Training Program, applicants must complete the USTA National Training Program Application which will be reviewed and assessed by the USTA National Training Program Selection Committee.

Applicants who are either ineligible or are not selected, but do meet our general training center criteria, are encouraged to visit the USTA Training Center in Boca Raton, Florida to train on a regular, non-resident, basis to compete with other top players from around the country.

Application Process

The USTA National Training Program Selection Committee will assess each applicant, among other things, on ability, potential, major tournament results, as well as additional criteria listed below. The application process may include interviews of both the applicant and his/her parent(s)/guardian(s) with the Selection Committee. If the applicant is approved for admission following the application process and the interview, as applicable, such applicant must submit to and pass a USTA medical screening conducted by the applicant's private physician. The applicant must complete any and all forms as may be deemed necessary from time to time, in the sole discretion of the USTA, in order to be formerly accepted and given the opportunity to join the select students at the USTA National Training Program.

Please note that an applicant may additionally be required to take an entrance exam(s).

1. Full-Time Admissions Procedures & Criteria

The USTA will require that applicants meet the following criteria:

1. Full-time residency in the United States with United States citizenship.
2. Applicants must be between the ages of 13 and 18 (an applicant who is currently 12 years old, but who will turn 13 by December 31, of that school year, is eligible);
3. High international or national tennis ranking;
4. Strong results at major international junior events (as noted below);
5. Demonstrated potential for development in the game of tennis;
6. Hard working/strong work ethic;
7. Positive attitude;
8. Discipline; and
9. Demonstrated respect for coaches, parents, and other persons and property.

2. Result Based Admission Requirements

As noted above, the USTA National Training Program Selection Committee will review the applicant's results at national and international junior events. Applicants should show strong tennis accomplishments, including results such as those listed below, before completing the application. Applicants should show strong finishes at the USTA National Championships and/or ITF Grades A and 1 events.

- Singles Quarter-Finalist of 16 & Under Kalamazoo or Easter Bowl
- Singles Quarter-Finalist of ITF Group 5 or higher in the North/Central American & Caribbean Region

3. Student Expectations

1. Eligible applicants will be selected to participate in the USTA National Training Program for one academic year; subject to earlier dismissal, suspension or expulsion for non compliance with applicable rules of conduct and other USTA policies and procedures.
2. Applicants selected to participate in the USTA National Training Program will be required, prior to acceptance and as a part of the application process, to complete and submit additional documents (including, without limitation, a waiver and release and acknowledgement of the Student Handbook), comply with all USTA medical requirements (including physical examinations), and complete any additional requirements as determined from time to time by the USTA in its sole discretion.
3. In April of each year, students currently enrolled in the program will be reviewed, and if renewed, both the students and parents/guardians will be asked to confirm their commitment in writing for the upcoming academic year. This assists in the USTA National Training Program Selection Committee's determination for the number of incoming students for the following school year.
4. At the beginning of each academic year, students will participate in designing a schedule which will incorporate proper balance of tournament versus training time. As a result, students will be advised, well in advance, of which tournaments they will be joined by a USTA National coach or staff member and to which they will travel unaccompanied.
5. Participants in the USTA National Training Program will be considered part of the Evert Residency program. Therefore, ETA's Student Services will be responsible for all off-court activities for students who are members of the USTA National Training Program.
6. The USTA will utilize the ETA for housing, meals, security, and student services.
7. All students are required to bring their own individual laptop computer. Students are strongly encouraged to tend to their academic studies during scheduled school times on site and while at tournaments.
8. Students are required to have their own health insurance. Students are required to provide such health information to the USTA and ETA as part of the application process.
9. Students are subject to drug testing, at any time with little or no advance notice, and/or out of competition basis, conducted by WADA, USADA, or the USTA, in accordance with the procedures of those bodies.

Tournament Entry & Travel Procedures

Once students are selected into the program, they will be under the guidance of the USTA staff for all areas of their tennis development. This will include their on-court & physical training schedule, tournament schedule, and rest schedule. Parents or personal coaches wishing to provide input may do so, but, ultimately, the decisions pertaining to each student will be made by the USTA staff. All entry fees for tournaments will be paid for by the student or reimbursed by the student to the USTA if paid for by the USTA. The USTA will coordinate all entries and withdrawals for students. It remains the student's responsibility to follow up with the USTA Player Services Staff to confirm that they have been entered or withdrawn (as applicable) from each event. The USTA will accompany

the student to the majority of his/her events, but at times, students may travel alone or with a group of students. Parents will be notified in the event the USTA will not send a coach or staff member on a particular trip. The student's development is a team effort in which the student, the student's parents, and the entire USTA team (including coach, trainer, and administration) will work together with the student's best interests always in mind.

Education

The USTA National Training Program, through its affiliation with the Evert Tennis Academy, provides an excellent academic program to suit the unique needs of our students. This program is approved by the USTA and affords the student the ability to meet the Program's rigorous training requirements.

Kaplan High School (Kaplan)

Kaplan is a fully accredited College Preparatory High School hosted on-line by the Evert Tennis Academy to meet the unique challenges of athletes who require anytime, anywhere learning. The program begins in late August. This is the academic program for full-time high school level boarders because it is conveniently located on campus and individually tailored to our student's needs. Students are encouraged to apply in advance for this program

Financial Responsibilities

The USTA shall provide, at no cost to the student, coaching services, Kaplan Online High School (tuition only) and room and board for students selected to participate at the USTA National Training Program. Students and their parent(s)/legal guardian(s) shall be responsible for any and all remaining fees and/or expenses related to the students participation in the USTA National Training Program which shall include, without limitation, books and tutors, transportation to/from tournaments, tournament registration fees, medical, extracurricular activities, etc.

Academy Policies

Student Drug and Alcohol Testing Policy

The USTA National Training Program is committed to the highest level of competitive and academic excellence. The use of illegal substances or alcohol is inconsistent with this purpose, has a detrimental impact on student behavior, interferes with academic and athletic performance, and may cause permanent physical and mental harm to the user. This behavior will not be tolerated by the USTA and is grounds for discipline, suspension, or expulsion.

Discipline System

Each student will receive a USTA National Training Program Student Handbook upon enrollment. The rules and regulations outlined in the handbook are intended to ensure the highest level of respect and mature behavior. They are designed to uphold the level of integrity for which the USTA National Training Program expects of its student athletes. Behavior inconsistent with such rules and regulations shall be grounds for discipline, suspension, or expulsion.
