

## **2014 National Top 500 Ranking List To Include 4 NorCal Adult Men's and Women's Open Tournaments**

The USTA is requested by the ITF to send a National Ranking of the top players of the United States. The USTA is only allowed to send a list comprised of 500 players. These lists are used when players do not have an ATP or WTA Ranking for selection into pro level events where they run out of players with professional rankings. (Usually this list is only used for the qualifying of lower level ITF circuit events). They are also used for seeding of events in the United States. This list includes the results of USTA National Adult and Jr Events, Jr ITF Events, Collegiate Events, USTA Pro Circuit events and Adult Sectional Championships.

USTA NorCal is proud to announce that the following 2014 NorCal Adult Open tournaments will count toward the USTA National Rankings for Pro Events (aka Top 500 List). These tournaments and other designated tournaments in other sections can also be found on the List of Section Events for National Rankings. For more information please visit the [USTA National Ranking for Pro Events \(Top 500 List\)](#) page.
